-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Claims 1 and 2 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 6/16/06.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 3 and 4 are rejected under 35 U.S.C. 102(e) as being anticipated by Aota et al. (US 2004/0069833 A1).

Aota teaches a method of fabricating a frame comprising the steps of preparing an outer frame member of T-shaped section having an inward extension, preparing an inner frame member having a flat portion abutting against the extension of the outer frame member and friction stir welding the members together (figures 9A-9D and paragraphs 46 and 47).

4. Claims 3-6 are rejected under 35 U.S.C. 102(e) as being anticipated by Wollaston et al. (US 2001/0052561 A1).

Wollaston teaches a method of fabricating a frame comprising the steps of preparing an outer frame member of T-shaped section having an inward extension, preparing an inner frame member having a flat portion abutting against the extension of the outer frame member and friction stir welding the members together (figures 1, 5A-5C, 28-30 and 38, paragraphs 73-80 and 94-96). The welded members are subjected to surface treatment (machining, paragraph 100).

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Young et al. (USPN 6933057 B2), Talwar et al. (USPN 6051325), Halley et al. (USPN 6910616 B2, post-weld treatment) and Aota et al. (USPN 6966481 B2).
